

Contract: BG05M2OP001-2.010-0001

Procedure: BG05M2OP001-2.010 “Qualification of Pedagogical Specialists”

Beneficiary: Ministry of Education and Science

Title: “Qualification for Professional Development of Pedagogical Specialists”

Duration: 4 October 2018 – 4 October 2021

Total budget: BGN 19 911 123, 00

SUMMARY:

The project activities are implemented within three school years- from 2018/2019 to 2020/2021. It is planned 52 000 pedagogical specialists from pre-school and school educational system to be involved in short-term trainings to attain from 1 to 3 qualification credits. The trainings will cover topics targeting the enhancement of knowledge and obtaining skills and competences related to the usage of innovative teaching methods, modern methods on result evaluation, personal development diagnostics and students’ consultation in order to achieve quality education and personal development; implement models for establishing and developing a positive school environment, including models for improving interaction between family and school, involving parents to participate more actively in the school community and effective class management; increase the pedagogical specialists’ qualification with management functions to be able to apply updated management models in education institutions, leadership for effective organization of school activities and coordination of pedagogical team. It is foreseen 48 015 pedagogical specialists to be involved in procedures for attaining vocational qualification level. The project gives opportunity for on-line training and testing, as well as extracting references.
