OPERATIONAL PROGRAMME  
SCIENCE AND EDUCATION  
FOR SMART GROWTH

---

**Contract:** BG05M2OP001-2.011-0001

**Procedure:** BG05M2OP001-2.011- Support for Success

**Beneficiary:** Ministry of Education and Science

**Title:** Support for Success

**Duration:** 28 February 2019 - 30 August 2021

**Total budget:** BGN 127 759 359, 94

#### **SUMMARY:**

The project aims to reduce the share of school students who are leaving the education system early, as well as to reintegrate them in the educational process. It is foreseen 1 500 schools to be covered and 120 000 students to be involved in the project activities. The objective is to support the equal access to quality education and better coverage of students by activities related to overcome learning difficulties and gaps in the learning contents. The project is focused on the development of potential and abilities of students for successful graduation of secondary education and for future social, professional and individual fulfillment. The focus is on students at primary and lower secondary education within basic education and depending on their individual needs, the project activities add and improve the competences attained in formal classes.

#### **RESULTS FORESEEN (INDICATORS):**

Schools offering activities to increase the motivation to learn through development of specific knowledge, skills and competences: 1 500;

School students involved in career guidance activities under the OP: 47 340;

Students at risk of early school-leaving involved in procedure activities: 120 000;

Relative share of students dropped out from formal education without reason out of total number of students: 1.43%
